

## Sick And Tired Of Monthly Payment To Autoresponders?

Have you ever struggled with low email open rates, terrible email inboxing, or your entire autoresponder failing to send out emails at the designated times?

Well, today - **InstaMailer** fixes all of that. [Check this out!](#)

Many of my subscribers always feel strongly about one thing - "How can I get features of platforms like Aweber, GetResponse with FULL control and without paying monthly costs?"

If you have the same question, I can give you 2 options:

- Build your own or buy Interspire (that costs \$495 per year).

OR

- Get [InstaMailer](#).

InstaMailer - an advanced email marketing solution has just become available in the market, and does some REALLY powerful email marketing tricks. Here's a complete list:

- Configuring SMTP to send emails is easy (and we have detailed guides) - you control the price
- It connects directly with APIs of major email marketing SMTPs to get faster email sending
- Detailed segmentation built in to improve marketing opportunities
- Immediate automation to move people around different lists based on actions
- Send as fast as 10,000 emails per minute (across the platform)
- Import single optin list from anywhere, **no restrictions**
- Customize your unsubscribe message as you want
- Full control over adding and removing contacts as and when you want, **no restrictions**
- Use optin forms to collect leads from other pages you own
- Send and schedule broadcasts and autoresponders
- List cleanup included (move/delete those that don't open/click)
- In-built spam checker
- Ability to block domains, IP addresses and more!

This tool is already responsible for delivering 1 Million mails a month right now, and it's available at one-time price for a very short time. Neil Napier used the same solution to improve his open rate by 284%!
