Although I highly encourage you to visit the link above and look at the features, the demo video and more, here's a quick summary of VidVirals many features...

Get Traffic In Minutes

With VidViral you can have an arsenal of traffic getting videos with just minutes of work.

Source Videos From Multiple Sources

YouTube, DailyMotion, Vimeo, Amazon S3, Your Desktop Computer, Or Your Mobile Device

Create Viral Traffic Video Memes Without Any Design Or "Tech" Skills

It's easy to customize your video headers and footers with the easy-to-use, graphical user interface and 'drag and drop' editor that's inside VidViral. This software is simple and doesn't require any special "tech" or video editing skills. It's 100% newbie-friendly.

Create Video Memes In Any Language

You can use ANY language you want in your headers and footers, and VidViral even has a built-in translation feature so you can target anyone... anywhere in the world!

Customizing Your Newly-Created Viral Videos Is As Easy As A Point And A Click With Our 'Drag And Drop' Editor

Easily add logos, images, watermarks, or any other character or image you want... With VidViral, everything is 100% customizable and resizable with a drag and a drop so you can make your videos memes look just how you want them!

Subtitle Friendly Footers

You can specify to keep the footer of your newly-created video memes "subtitle-friendly" if you upload subtitles with your video. This simply means your footer will NOT interfere with the subtitles that plan with your video.

Thousands Of Images And Characters Included

Although you can use your own images when you create your video memes, you can take a massive shortcut by accessing the THOUSANDS of images, icons, smileys, and more inside. All images are fully customizable right inside VidViral.

Integrated With YouZign For Even More Images

Pull images directly from YouZign for even more quality images you can use in your video memes.

Render In The Cloud

Rendering is all done in the cloud, so it works without slowing down your computer so you can work on other things while you videos render.

Share Videos On Social Media With A Click

It's easy to share your videos on social media with a single click...or simply download and use as you wish.

Optimized For Mobile

Because VidViral is mobile compatible, you can even upload, edit, and render videos RIGHT from your mobile device... This makes it easy to create traffic-getting videos from ANYWHERE!

Nothing To Install

VidViral is hosted in the cloud, there's never anything install... ever!

So what do you think?

I've been playing with this tool all day long... it's wonderful.
